EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ira Schultz on 9-19-06.

The application has been amended as follows:

In claim 28, line 1, "25" has been changed to -24--.

In claim 32, line 1, "25" has been changed to -24--.

In claim 46, line 1, "45" has been changed to -24--.

Claims 52-59 have been canceled as being directed to a non-elected invention by original presentation, the election having been made without traverse.

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested the formation of a self-supporting fiber composite grid component formed via tailored fiber placement which included an area with a flat surface (and which additionally had uniform thickness as defined in claim 24) by forming the perform by tailored fiber placement followed by curing in a mold a polymer or monomer provided in the perform, removal from the mold and pyrolyzing, carbonizing, and/or graphitizing the cured perform to form the assembly. Regarding the 112, first paragraph rejections, it should be noted that one skilled in the art would have understood what was meant by "tailored fiber placement" including the use of a stitching

operation into a base and would have known how to place the fibers in the specified pattern in order to attain uniformity in thickness in the assembly whereby a flat surface area was provided subsequent to pyrolyzing, carbonizing or graphitizing. The applicant is additionally advised that one skilled in the art would have readily understood based upon the original disclosure that the base was in fact "self supporting". Wright taught a basket useful for a furnace from a gridwork assembly, however the reference did not envision the specified tailored fiber placement to form the same. The reference to Scheibel et al suggested a furnace basket assembly and suggested tailored fiber placement was known for such formation but it is not available as prior art (as it was published 9-7-06).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
